CONTAINER PROFILES

- ▣ A way to record specific qualities for a type of container (e.g., name, dimensions)
- ▣ Helpful for:
 - ▣ Automated calculations
 - ▣ Paging
 - ▣ Rehousing projects

PROCESS

- ❑ **Export list of container profiles**
- ❑ **Identify how many top containers are associated with each profile**
- ❑ **Identify duplicates in OpenRefine**
- ❑ **Delete unused profiles**
- ❑ **Merge duplicate/similar profiles**

Cluster & Edit column "Combined Dimensions"

This feature helps you find groups of different cell values that might be alternative representations of the same thing. For example, "13.0" and "13.00" are very likely to refer to the same concept and just have capitalization differences, and "Gödel" and "Godel" probably

Method
